FOREWORD

The St. Vincent and the Grenadines Port Authority Statistical Digest encloses data on cargo, vessel and cruise passenger activities at the county's major port centers – Kingstown and Campden Park Container Port. It also captures data on cruise vessel passenger arrivals in the Grenadines.

The Campden Park Container Port is a subsidiary of St.Vincent and the Grenadines Port Authority and is the central container port in St. Vincent and the Grenadines. On average, 90% of all container activities are handled at this location.

The intention of this publication is to provide statistics to all our present and impending customers, various stakeholders and the public at large who expectantly will find this digest a valuable resource.

Any valuable propositions will be appreciated.

Paul Kirby
Port Manager

Total Banana exports in 2009 was 7,401 tonnes as compared against 8,423 tonnes in 2008 thereby reflecting a 12% decrease in exports in 2009. The percentage decrease amounts to less than twice the percentage reduction (37.86%) in 2008. Exports were less than 1000 tonnes per month throughout 2009 with slight increases in the months of August and November when compared with the corresponding periods in the previous year.

In the latter part of 2009, a new disease surfaced, affecting the banana industry. The Black Sigatoka disease might have affected the production of Bananas to a lesser extent in the months following the breakout. Also, the fall in the retail price in supermarkets in the United Kingdom continues to be one of the contributing factors for the decrease in output in 2009.

Container activity for the year 2009 reflected a total reduction of 70.18 % in teus as compared with 62.92% drop in 2008. The first half of the year would have contributed to such a fall (84.9%) in teus which came about as a spill off from the transfer of container activity to Campden Park Container Port in 2008. However, a 26% growth in teus was realized in the last half of the year. Total teus for 2009 was 1,534 as compared with 5143.5 teus in 2008. Total container tonnage mirrored that of teus highlighting a 78.54 decrease in 2009 (14,925 tonnes) as compared with 2008 (69,548 tonnes).
